

02 Service Pillar / Spatial Planning

Spatial Planning & GIS

Spatial decisions outlive the people who make them. We author the frameworks, schemes and datasets that govern where a city grows — and we make them queryable, so a planning decision is an analysis, not an opinion.

WHAT THIS COVERS

01**Municipal and regional Spatial Development Frameworks****02****Land Use Schemes and SPLUMA compliance****03****Cadastral, zoning and servitude data engineering****04****Drone and satellite survey integration****05****Growth, densification and infrastructure demand modelling****06****Enterprise GIS architecture and data governance**
